

4 Steps to Success

Inspire. Prepare. Empower. Learn

This fully holistic support package combines reflective, aspirational techniques alongside inspirational, attainment focused tools. Students will be inspired and prepared to aim high and achieve well.

Description

This is a fully holistic support package which combines both personal development and accelerated learning workshops.

We are able to tailor this programme to suit any year group.

Please see beneath example programme:

Goal Mapping
Super Speed Study Skills
Resilience OR Mastering Student Motivation
Exam Busters

Content

During the programme, students will:

- Be inspired with creative study techniques
- Be upskilled with tools to raise standards in exams
- Create a visual goal map which will chart their route to success
- Learn how to become intrinsically motivated
- Learn the importance of having a growth mindset
- Learn how to use failure as a platform to success

Features & Benefits

Delivering 4 workshops as part of a creative learning package ensures that students are fully prepared to take control of their education.

Each of the workshops can be delivered as standalone programmes, however as all educators are aware, it's paramount to raise both attainment and aspirations in order to create well-rounded students.

Aims

- To stimulate a positive attitude towards learning
- To show students that they can achieve whatever they put their mind to
- To raise both aspirations and educational standards

Logistics & Dynamics

- Each workshop is 2 hours long
- We deliver 2 x 2 hour workshops per day to 2 different groups of students
- Each workshop can be delivered to up to 150 students (Goal Mapping – up to 100)
- This is a 4 day intervention

“Lots of different strategies provided for students to take away and use for their revision ready for their exams. The content gave the students a variety of creative ways that hopefully all of them will use at some point in preparation.”
