

Exam Support

This combination of our most popular accelerated learning workshops provides students with a comprehensive exam toolkit. When used alongside the content taught in lessons, the toolkit ensures that students are fully-prepared to sit their exams.

Description

Ideally, the workshops will be delivered in the order beneath, in the specified time period, however we are flexible to accommodate timetable variations.

Please see beneath example programme:

Super Speed Study Skills – Term 1

Mind Mapping – Term 2

Exam Busters – Term 3

A Crash Course in Accelerated Learning -
INSET day - Any time

Content

During the course of this package, students will:

- Learn the importance of developing a growth mindset
- Gain an insight into the amazing power of their brain
- Learn some fantastic memory techniques
- Understand the benefits of regular review methods
- Learn how to remember, recall and retain information
- Gain some tips on stress management

Features & Benefits

This high-impact 4-day accelerated learning programme provides students with a multi-level approach to achieving exam success.

This programme is a fully holistic support mechanism for students.

The workshops can be delivered as standalone programmes; however, we believe that delivering a sustained intervention will allow students to build upon the momentum which schools have already created and fully embed the techniques into their revision schedule.

Aims

- To upskill students with powerful, creative exam and study techniques
- To build enthusiasm for learning and prove that learning really can be fun

Logistics & Dynamics

- Each workshop is 2 hours long
- We deliver 2 x 2 hour workshops per day to 2 different groups of students (Mind Mapping - up to 100 students)
- An INSET is a full training day

“Informative and very useful revision techniques for young people to help them in their exams and young adult life in fact. Students loved it so here’s hoping they use these techniques to better themselves and their results and school work in the future.”
